

HARRINGTON PARK SCHOOL DISTRICT

May 15, 2020

Good Morning Families,

As the Governor has decided to close schools for the remainder of the school year, the district has started to make preparations for the summer and fall of 2020. On Friday, May 22nd, the district will bring in staff throughout the day and will not assign new work to students on that day but allow students to continue to complete their work from the week.

As a district we are also committed to honoring our 8th-grade students both with graduation and the musical that honors the hard work and commitment they have demonstrated throughout the year. We are developing programs for them that are both creative and innovative and I ask that you please join me in subscribing to our [Youtube channel](#) and see the students' first leg of their promotional tour for the [Wedding Singer](#). Leading the Way is not just a saying, it is our North Star and we are a school community prepared to do all that we can as Spartans to honor our 8th-grade students.

As one can expect, this is a very different closing than in previous years and we understand the tremendous effort it has taken for our students to be successful in the digital transformation. As a school district, we thank you for your partnership as only together can we "Lead the Way".

As always, thank you for your help and please feel free to reach out to us if you have any questions.

Sincerely,
Dr. Adam D. Fried
Superintendent
