

HARRINGTON PARK SCHOOL DISTRICT

February 27, 2020

Dear Family Members,

The health of our students and staff is a top priority. It is for that reason I am reaching out to you following yesterday's announcement from the Centers for Disease Control and Prevention (CDC) that schools should be prepared if there is a spread of the Coronavirus in the United States.

Based on CDC guidance, I am asking that families who have traveled within the past two weeks to an area of the world highly impacted by the Coronavirus (China, South Korea, Japan, Italy, Greece and Iran) to please contact the Building administration at nitzberg@hpsd.org or the school nurse at goldstein@hpsd.org to discuss the potential self-quarantine protocols. (<https://www.cdc.gov/coronavirus/2019-ncov/php/risk-assessment.html#table-risk-management>)

As a family, it is our goal to maintain a healthy environment in our schools. I will be monitoring the Coronavirus situation closely. Please be assured that we will follow all recommendations of the CDC and the New Jersey Department of Health, so to protect all of our students and staff.

Respectfully yours,
Dr. Adam D. Fried
Superintendent
